

6.1 DAILY JOB SITE LOG

Purpose: The Daily Job Site Log is your primary record of everything that happens on your construction site. Complete one entry for each day work occurs. This log serves as documentation for insurance claims, disputes, schedule tracking, and your own peace of mind.

Instructions:

- Fill out this log at the end of each work day while details are fresh
- Be specific and detailed - you may need this information months or years later
- Record actual hours, not estimates
- Note anything unusual, even if it seems minor at the time
- Take photos throughout the day and reference photo numbers in your log
- Keep completed logs in chronological order in this binder

Tips for Effective Daily Logging:

- *Make entries consistent and complete - establish a routine*
- *Record conversations and verbal agreements*
- *Note weather conditions that affect work*
- *Document any changes from the original plan*
- *Keep entries factual and objective*

DAILY JOB SITE LOG - TEMPLATE

Date: _____ Day of Week: _____
