

6.5 SAFETY INCIDENT REPORT

IMPORTANT - WHEN TO USE THIS FORM:

Complete this form IMMEDIATELY after ANY of the following:

- Any injury, no matter how minor (cuts, bruises, strains, etc.)
- Near-miss incidents (something almost caused an injury)
- Property damage from safety-related incidents
- Unsafe conditions discovered on site

This documentation protects you legally and helps prevent future incidents.

Purpose: Safety incident reports document what happened, why it happened, and what you're doing to prevent it from happening again. These reports are critical for insurance claims, legal protection, workers' compensation claims, and identifying patterns that need to be addressed.

Instructions:

- Complete this form as soon as possible after any incident - while details are fresh
- Be factual and objective - don't assign blame, just document facts
- Include all relevant details - more information is better than less
- Get witness statements and contact information
- Take photos of the incident location, equipment involved, and any injuries
- Keep completed reports in this section in chronological order
- Review incident reports periodically to identify safety improvement areas

Emergency Response Reminder:

- *FIRST PRIORITY: Ensure scene is safe and provide necessary first aid*
- *Call 911 if serious injury or medical emergency*
- *Only move injured person if absolutely necessary for safety*
- *Keep injured person calm and comfortable*
- *Complete this report AFTER emergency response is handled*
