

3.2 Electrical Rough-In Log

Room-by-room record of every box, outlet, switch and circuit installed at rough-in — plus the circuit schedule, quality checks and inspection result.

Property Address: _____

Permit Number: _____ Inspection Date: _____

Inspector: _____ Electrician: _____

License #: _____ Phone: _____

INSTRUCTIONS: Work room by room. Record the circuit number for every device as you install it — that record becomes your panel directory, and reconstructing it after drywall is nearly impossible. Photograph each wall before insulation goes in.

ROOM-BY-ROOM ROUGH-IN

Master Bedroom

	Item / Location	Type / Specification	Circuit #	Notes
☐	Ceiling light/fan box	☐ Light ☐ Fan-rated		
☐	Wall outlets — count: _____	15A or 20A duplex		
☐	Outlet spacing (12' max)	Per code		
☐	Outlet height (in): _____	Typically 12"-18" AFF		
☐	Light switch(es) — count: _____	☐ Single ☐ 3-way ☐ 4-way		
☐	Switch height (in): _____	Typically 48" AFF		
☐	Cable/data outlets	TV, phone, ethernet	N/A	
☐	Smoke detector location	Hardwired + battery		
☐	Closet light	LED or protected fixture		

Master Bathroom

	Item / Location	Type / Specification	Circuit #	Notes
☐	Vanity lights	Above/beside mirror		
☐	GFCI outlet(s) — count: _____	20A, within 3' of sink		
☐	Outlet height (in): _____	Typically 42" AFF		
☐	Exhaust fan/vent	Dedicated circuit preferred		
☐	Heat lamp (if applicable)	Separate switch		
☐	Shower/tub light	Wet location rated		
☐	Heated floor (if applicable)	Dedicated 20A circuit		
☐	Outlets 6' from water source	Code compliance check	N/A	

Bedroom #2

	Item / Location	Type / Specification	Circuit #	Notes
☐	Ceiling light/fan box	☐ Light ☐ Fan-rated		
☐	Wall outlets — count: _____	15A or 20A duplex		
☐	Light switch(es) — count: _____	☐ Single ☐ 3-way		
☐	Cable/data outlets	TV, ethernet	N/A	
☐	Closet light	LED or protected		

Bedroom #3

	Item / Location	Type / Specification	Circuit #	Notes
☐	Ceiling light/fan box	☐ Light ☐ Fan-rated		
☐	Wall outlets — count: _____	15A or 20A duplex		
☐	Light switch(es) — count: _____	☐ Single ☐ 3-way		

Bedroom #3

	Item / Location	Type / Specification	Circuit #	Notes
☐	Cable/data outlets	TV, ethernet	N/A	
☐	Closet light	LED or protected		

Bathroom #2

	Item / Location	Type / Specification	Circuit #	Notes
☐	Vanity lights	Above/beside mirror		
☐	GFCI outlet(s) — count: _____	20A, within 3' of sink		
☐	Exhaust fan/vent	Dedicated circuit preferred		
☐	Shower/tub light	Wet location rated		

Kitchen

	Item / Location	Type / Specification	Circuit #	Notes
☐	Refrigerator outlet	Dedicated 20A circuit		
☐	Dishwasher outlet/junction	Dedicated 20A circuit		
☐	Garbage disposal outlet/switch	20A circuit, switch above counter		
☐	Microwave outlet	Dedicated 20A circuit		
☐	Range/cooktop	☐ 240V 50A ☐ Gas with 120V		
☐	Range hood/vent fan	Dedicated circuit		
☐	Counter outlets — minimum 2	20A GFCI, above backsplash		
☐	Counter outlet spacing (4' max)	Per code requirement		
☐	Island outlet	20A GFCI if applicable		
☐	Under-cabinet lighting	Switched circuit		

Kitchen

	Item / Location	Type / Specification	Circuit #	Notes
☐	Ceiling light(s)	Centered or per plan		
☐	Pantry light	Switched		
☐	Light switches — count: _____	☐ Single ☐ 3-way		

Kitchen Notes

Living Room / Family Room

	Item / Location	Type / Specification	Circuit #	Notes
☐	Ceiling light/fan boxes	Count: _____ ☐ Fan-rated		
☐	Wall outlets — count: _____	15A or 20A duplex		
☐	Outlet spacing (12' max)	Per code		
☐	Light switches — count: _____	☐ Single ☐ 3-way ☐ 4-way		
☐	Cable/data outlets	TV, ethernet, phone	N/A	
☐	Fireplace outlet (if applicable)	Dedicated circuit		
☐	Smoke detector	Hardwired + battery		

Dining Room

	Item / Location	Type / Specification	Circuit #	Notes
☐	Ceiling light/chandelier box	Centered over table area		
☐	Wall outlets — count: _____	15A or 20A duplex		

Dining Room

	Item / Location	Type / Specification	Circuit #	Notes
☐	Light switches — count: _____	☐ Single ☐ 3-way ☐ Dimmer		

Hallway(s)

	Item / Location	Type / Specification	Circuit #	Notes
☐	Ceiling lights — count: _____	Spacing per plan		
☐	Wall outlets — count: _____	Within 25' spacing		
☐	3-way switches at hall ends	If hall over 10'		
☐	Smoke/CO detectors	Hardwired + battery		
☐	Linen closet light	Switched		

Laundry Room

	Item / Location	Type / Specification	Circuit #	Notes
☐	Washer outlet	Dedicated 20A circuit		
☐	Dryer outlet	☐ 240V 30A ☐ Gas with 120V		
☐	Ceiling light	Switched		
☐	Utility sink outlet	GFCI protected		
☐	Additional outlets Count: _____	For iron, etc.		

Garage

	Item / Location	Type / Specification	Circuit #	Notes
☐	Garage door opener outlet(s) Count: _____	Ceiling mounted		
☐	Wall outlets — count: _____	GFCI protected, 15A or 20A		

Garage

	Item / Location	Type / Specification	Circuit #	Notes
☐	Ceiling lights — count: _____	LED recommended		
☐	3-way switches (garage/house)	If applicable		
☐	Workbench circuit	Dedicated 20A recommended		
☐	EV charger circuit (if applicable)	240V 50A dedicated		
☐	Smoke/CO detector	Hardwired if attached garage		

Utility / Mechanical Room

	Item / Location	Type / Specification	Circuit #	Notes
☐	Furnace/air handler circuit	Per equipment specs		
☐	Water heater circuit	☐ 240V ☐ 120V		
☐	Ceiling light	Required, switched at door		
☐	Utility outlet	20A minimum		
☐	Sump pump outlet (if applicable)	Dedicated 20A, GFCI		

EXTERIOR ELECTRICAL

Exterior Devices & Equipment Circuits

	Item / Location	Type / Specification	Circuit #	Notes
☐	Front porch light	Weatherproof, switched inside		
☐	Back porch/deck light	Weatherproof, switched inside		
☐	Front outlet	GFCI, weatherproof cover		
☐	Back outlet	GFCI, weatherproof cover		

Exterior Devices & Equipment Circuits

	Item / Location	Type / Specification	Circuit #	Notes
☐	Side yard outlet(s) Count: _____	GFCI, weatherproof		
☐	Landscape lighting (if applicable)	Low voltage transformer location		
☐	Driveway/walkway lights	As per plan		
☐	Security lights/motion sensors	Weatherproof boxes		
☐	Well pump circuit (if applicable)	Per pump specifications		
☐	Septic pump circuit (if applicable)	Dedicated, per specs		
☐	Pool equipment (if applicable)	Per code and equipment specs		
☐	Hot tub circuit (if applicable)	GFCI protected, per specs		
☐	AC condensing unit disconnect	Within sight, proper size		

Exterior Electrical Notes

SERVICE PANEL & ELECTRICAL SERVICE

Service, Grounding & Overcurrent Protection

	Item	Specification	Notes
☐	Main service panel size	☐ 100A ☐ 150A ☐ 200A	
☐	Main panel location accessible	Per code clearances	
☐	Service entrance cable/conduit	Proper size for service	
☐	Meter base installed	Utility approved location	
☐	Grounding electrode system	Rods, water pipe, etc.	
☐	Grounding electrode conductor	Proper size, connections	
☐	Main bonding jumper installed	At service equipment	
☐	Subpanel(s) if applicable	Location: _____	
☐	Subpanel feeder size adequate	Per load calculation	
☐	Surge protection device	☐ Installed ☐ Not included	
☐	Circuit directory/labels prepared	Ready for final	
☐	AFCI breakers where required	Bedrooms, living areas	
☐	GFCI breakers/outlets where required	Baths, kitchen, exterior, etc.	
☐	Generator interlock/transfer switch	☐ Yes ☐ No ☐ Future provision	

Service Panel Notes

SPECIAL SYSTEMS

Low-Voltage & Pre-Wire

	System	Status	Notes
☐	Security system pre-wire	☐ Yes ☐ No	
☐	Doorbell/intercom wiring	☐ Wired ☐ Wireless	
☐	Whole-house audio pre-wire	☐ Yes ☐ No	
☐	Central vacuum rough-in	☐ Yes ☐ No	
☐	Home automation hubs/panels	☐ Yes ☐ No	

ROUGH-IN QUALITY CHECKS

Boxes, Cable & Protection

	Item	Notes
☐	All boxes properly secured to framing	
☐	Box depth adequate for wall finish thickness	
☐	Cable secured within 12" of boxes	
☐	Cable secured along runs per code (4.5' max)	
☐	Cable protected where passing through framing	
☐	Nail plates installed over cables in studs/joists	
☐	Proper cable type used (NM-B, UF, etc.)	
☐	Wire size adequate for circuit amperage	
☐	Minimum 6" of wire left at each box	
☐	Cable sheathing extends into boxes 1/4" min	
☐	No damaged cable insulation visible	
☐	Proper box fill not exceeded	

Boxes, Cable & Protection

	Item	Notes
☐	All splices made in approved boxes	
☐	Recessed light boxes IC-rated if touching insulation	
☐	Bathroom exhaust fans vented to exterior
